Erratum
Following the publication of the original article [1], it was brought to our attention that the title contained an error: “The Institute for Healthcare Improvement’s Project JOINTS” was incorrectly included as “the Institute for Health Improvement’s Project JOINTS”.

The title has been corrected to read: “Does a quality improvement campaign accelerate take-up of new evidence? A ten-state cluster-randomized controlled trial of the IHI’s Project JOINTS”.

The corrected title has been included in this erratum and updated in the original article.
