#Archaeology and #SocialMedia at #ACRNCASPAR

Yesterday the CASPAR, the Centre for Audio-Visual Study and Practice in Archaeology and the Archaeology and Communication Research Network held a workshop at UCL's Institute for Archaeology. The workshop was hashtagged on Twitter as #ACRNCASPAR and it's been blogged by Daniel Pett. Below is the Storified collection of tweets by @jessogden.

Archaeologists & the Digital: Towards Strategies of Engagement

A Storify about the CASPAR workshop on digital engagement for archaeology on May 16, 2011 at the UCL Institute for Archaeology.

This Storify account attempts to bring together a Twitter conversation on during the workshop on digital engagement in Archaeology. Not many RT's were included, but made up a size-able proportion of tweets - particularly following the end of the workshop.

A more in depth post on the various papers, highlights and discussions done by Dan Pett can be found on his blog post.

There were various announcements and tweets leading up to the workshop:
Tomorrow is #ACRNCASPAR at the Institute of Archaeology, UCL. If you're coming, see you there. Web, tv, archaeology engagement. #archaeology

Have to get up at the crack of dawn tomorrow to get to the #ACRNCASPAR workshop at the UCL Io #Archaeology. Better be lots of coffee!
1:04 PM - 15 May 2011

Rewriting paper for #ACRNCASPAR at dawn does not put me in best of moods. But looking forward to seeing everyone later at the workshop :-)

@archaeologyman Is #ACRNCASPAR an ancronym for something? The majority of words in the English language are shorter than that!
