2016 Academic Emergency Medicine Consensus Conference

Shared Decision Making in the Emergency Department: Development of a Policy-Relevant Patient-Centered Research Agenda

The 2016 Academic Emergency Medicine (AEM) consensus conference, “Shared Decision Making in the Emergency Department: Development of a Policy-Relevant Patient-Centered Research Agenda,” will be held on May 10, 2016, immediately preceding the SAEM Annual Meeting in New Orleans, LA. Original research papers on this topic, if accepted, will be published together with the conference proceedings in the December 2016 issue of AEM.

The consensus conference will convene major thought leaders and necessary stakeholders on shared decision making in acute care. Specifically, the conference will include patients, patient representatives from national advocacy organizations, emergency physicians, mid-level providers, emergency nurses, and researchers with expertise in shared decision making and patient-centered outcomes research, comparative effectiveness research, and health information technology. There will be clinicians across various disciplines such as emergency medicine, health services research, psychology, and quality improvement. Finally, the conference will include national policy makers, payer representatives, and other stakeholders with the expressed goal of developing a multidisciplinary, consensus-based, high-priority research agenda to improve and optimize shared decision making in the emergency department.

Consensus Objectives:
1. Critically examine the state of science on shared decision making in emergency medicine, and identify opportunities, limitations, and gaps in knowledge and methodology;
2. Develop a consensus statement that prioritizes opportunities for research in shared decision making that will result in practice changes, and identifies effective methodological approaches;
3. Identify and build collaborative research networks to study the use of shared decision making and patient-centered outcomes research in emergency medicine that will be competitive for federal funding.

Accepted manuscripts will present original, high-quality research in shared decision making in the ED, such as clinical decision rules, shared decision making, knowledge translation, comparative effectiveness research, and multidisciplinary collaboration. They may include work in clinical, translational, health systems, policy, or basic science research. Papers will be considered for publication in the December 2016 issue of AEM if received by April 17, 2016. All submissions will undergo peer review and publication cannot be guaranteed.

For queries, please contact the conference chair, Corita R. Grudzen, MD, MSHS (corita.grudzen@nyumc.org), or the co-chairs Christopher R. Carpenter, MD, MSc (carpenterc@wusm.wustl.edu) and Erik Hess, MD (Hess.Erik@mayo.edu). Information and updates will be regularly posted in AEM and the SAEM Newsletter, and on the journal and SAEM websites.
Academic Emergency Medicine Faculty
University of South Alabama

The Department of Emergency Medicine at the University of South Alabama is engaged in major academic program development with openings for multiple new EM faculty. Must be EM residency trained. Additional training or expertise in EM subspecialties or education, research, or ultrasound fellowships, is a plus. Expansion of education/training programs including developing an EM residency, is in progress. This is an opportunity to take on leadership positions and develop expanded clinical care, teaching and research programs.

The USAHS includes USAMC, with the only regional Level I Trauma, Burn and interventional stroke programs; and the USA Children’s and Women’s Hospital.

The position includes AAMC based competitive salary, comprehensive benefits and a generous paid time off (38 days) package.

The Mobile metropolitan area is located minutes from the white sand beaches of the Alabama and Florida coasts. Home to over 600,000 residents, the Mobile area boasts a thriving economy and its cost of living is among the lowest of the 80 largest metropolitan areas in the U.S.

UC Irvine Health
DEPARTMENT OF EMERGENCY MEDICINE FACULTY OPPORTUNITIES

- Associate Residency Director
- Associate EMS Director
- Ultrasound Director
- Quality Director
- Clinical Faculty

Come explore our 947-bed Magnet facility on the campus of Case Western Reserve University (CWRU) in the cultural Circle district of Cleveland. The summer of 2015 marks the fourth anniversary of our new 44-bed state-of-the-art Center for Emergency Medicine (EM) and the graduation of our fourth resident class. We will be designated a level I Trauma center in fall 2015. We also launched our Global Emergency Medicine Fellowship. UH Case Medical Center, including Rainbow Babies and Children’s Hospital, is the primary teaching affiliate of CWRU School of Medicine (SOM). We provide quality, compassionate, accessible care along with outstanding research and training. Our EM residency training program with 10 residents per year is part of a GME program hosting over 850 interns, residents and fellows. The UH EMS Training & Disaster Institute provides medical direction to over 120 EMS agencies in northeast Ohio.

We are currently seeking ABEM/ABOEM certified or prepared physicians for full-time faculty positions. You will be appointed at the appropriate rank at CWRU SOM. Salary and academic rank, commensurate with accomplishments and experience.

Qualified candidates should send a CV with letter of interest to Edmundo Mandac, MD, Chair, Department of Emergency Medicine at: edmundo.mandac@uhhospitals.org or call 216-844-1636.
