It’s just such an amazing experience to be able to play soccer for your job.

Kim
Being able to spend time with my teammates and get to know these people that are so good at their craft. That’s something that’s really precious to me.

ROSIE
Stepping out on that field and... and playing that sport that you love is ... it’s just... you know a great feeling and something that I will cherish forever and not want to let go of.

ALI
I had a kind of confidence going into it. And then once we started playing, I just... I definitely wasn’t at the same level as a lot of the players but they just helped me and supported me and... and basically forced me to improve and it exceeded expectations and was above and went above and beyond anything I could have imagined going from college to basically one of the highest levels in the world for professional soccer.

Kim sitting on grass looking at tickets.

KIM
The feeling of a new league coming back was really exciting. I just felt like this time it was something that I wasn’t gonna take for granted and I wanted to make sure that I at least gave it my best shot

ROSIE
Each WPS team is... rosters 18 players and then you have 4 developmental players... so it was definitely hard having that status because you know practicing everyday and you know working hard come game time when everyone’s healthy and there you can’t play, you’re not rostered. But it’s made me stronger and ready for anything that comes my way.

The Women’s Professional Soccer League was launched in 2009 with 7 teams including the Bay Area’s Gold Pride and others in the Bay Area, LA, St. Louis, Chicago, Washington DC, New Jersey and Boston. By the end of the first season, the league was growing with new teams in Atlanta and Philadelphia.

Ali
Having Marta the best player in the world and Christine Sinclair, definitely another top striker. And you know a bunch of US players. I think there was this kind of Dream Team idea and hope for us.

MUSIC: Transition
ARCHIVAL FOOTAGE: Marta highlights

Narrator
Gold Pride is home to Marta Vieira Da Silva, considered the best female soccer player in the world.

Ali
Getting to know Marta was one of the greatest things, just such an amazing player and such a great teammate.

Narrator
Marta came with a half a million-dollar price tag. Even though the average salary in the league is 30,000 dollars and developmental players like Rosie earn as low as 6,000 dollars.

Ali
For women, we have to promote ourselves and promote the team and try to get people to come out. We do… we don’t have a great fan base and the league is new and we moved venues and there was a huge huge kind of necessity for us to… get fans.

*For these young girls who get to see these players. And look up to them and want to become them. Even though we know they won't necessarily become women professional athletes. But they can become something like that. I think is very powerful and very important for us to have so...*

*My daughter, I think she just has these opportunities that she didn't have before in her imagination. Her imagination originally was just around this whole idea of being a princess and being Cinderella and now she can be this professional soccer athlete. I think that's really beautiful. I think it's something that we need in society.*

HOW ROSIE STARTED PLAYING SOCCER

ROSIE:

And he always told me, he was like, "Oh you know... you can be like them one day if you work hard... and you know.... keep watching soccer, keep playing, keep dedicating yourself." So every morning on the weekend I would get up, watch soccer and pay attention to like the positions I played. And I... I stuck to one player and watched them play and see what type of things they’d do off the ball, with the ball.

SOUND: In the distance we hear one player say Nutmeg’s turn. Then we hear Rosie breathing.

ROSIE:
Ready. Go.

ROSIE:
Once high school hit I had to decide what sport... stick with a sport it’s... it’ll pay off in the long run. So I was like you know it’s soccer. I’ve been playing my whole life. And I love it. And I knew that high school was very important as far as like wanting to get a scholarship to college and play at the highest level at that time. Whenever weekends came and my club team didn’t have a tournament or games I would always guest play with other teams in San Diego and LA. If I didn’t want to proceed in soccer and excel in it I don’t think I would have put that much time... extra time in it.

Rosie and the two other players hop a fence and leave the park.

1999, I guess I was 11 or 12. I must have been 11 and we actually, my parents and I went to the final. And it was so, it was just so inspirational and that was just the highest level of women’s soccer I had ever seen. And just how athletic the women were and how much fun they had and playing on the international stage with you know, the Rose Bowl with all the girls, all the families just in red white and blue. And um... tattoos on their faces and just totally decked out in USA gear.

NARRATOR

The media coverage during the 1999 world cup showed how Title 9 had finally paid off. The 1972 Federal legislation required gender equality in schools across the country and forever changed girl’s access to sports.

ARCHIVAL PHOTOS: Kim as a girl with her family, Kim as a girl with soccer team and mom, Kim as a girl playing soccer, CU of Kim’s face as a girl, Kim playing soccer in college

KIM YOKERS:

My mom coached me from the time I was little as I said ‘till the time I went to college. And a lot of the reason that she was so passionate about coaching and being involved with soccer was she played on her own women’s team that was pretty good... When she was young, they didn’t really have sports for women in the same way that they do now.
The energy coming out of the Women’s World Cup led to the first fully professional women’s league in the world called the Women’s United Soccer Association. It was another landmark in the history of women’s sports. But despite high hopes interest dwindled and the league went under after three years.

The year I graduated from school, that league folded. It was no longer viable.

I was talking to my coach and you know, I think I would have been a pretty high draft pick and I could have played for one of those teams and I was excited about that possibility. And then just nothing came of it. So it was a really strange feeling to have put so much into my playing. And so much heart into, you know, building toward this dream and then when I graduated it just wasn’t even possible.

My teammate had heard on Big Soccer dot Com or some… a couple of these Websites that there were these articles that are team’s folding.

So I was like, oh FC Gold Pride... that’s my team?

KIM:
Just feeling a little bit like, okay, we’re not valued very much if we don’t even have this information. And this is... this is our livelihood right now.

Ilisa in office being interviewed by a KRON’s Vernon Glenn

REPORTER
And you can just look at me... Is this kinda like batter on the 9th, two outs, two strikes on the batter kind of a situation?

ILISA:
Yes, but it’s soccer (laughs awkwardly.) It’s women’s pro soccer. Yeah. This is it. We’re a team that’s ready to fold. We’re looking for an investor. It’s last minute and uh nothing’s come through yet. So the team’s definitely in peril.

Marta bobble head, Gold Pride sign on door that says “Let’s get it done!”

ILISA
We’ve had a lot of attention about the plight we’re in and word’s been getting out but we haven’t had anybody come forward and say that they would be interested in being a minority owner or an owner of the team. So without that, it’s... it’s not going to be around.

KIM
The part that was, that was really, has been frustrating for me playing pro soccer. Is that always kind of feeling like a lack of control, or lack of like access to information and that sort of thing.

CU of framed newspaper article: Golden opportunity in women’s league demands frugality, WS of framed newspaper article in hallway, balls on shelf

KIM
So I’m on the phone calling teammates and seeing what they think and what they’ve heard and they’re asking me. And we’re all a little bit just at the mercy of whatever’s happening with this league structure that’s trying to form.

PART III: MAKING SENSE OF WHAT’S HAPPENING TO THE TEAM AND FIGURING OUT WHAT’S NEXT

01:16:02

WPS MEDIA CONFERENCE CALL
White board listing “Things to Shut Down”

WPS COMMUNICATIONS DIRECTOR (AUDIO)
Hello media, thank you for joining us today for this WPS 2011 season update conference call. So we’re set to begin. Um, in light of yesterday’s news about six teams confirming for the WPS season and another looking to shore up funding over the next month.

SOUND: Light sound from kitchen
Kim cooking in kitchen

VOICE 1 - (AUDIO)
You know, these players in my opinion. They deserve so much more than they get, that’s no doubt. They work as hard as an NFL player.

VOICE 2 - (AUDIO)
Um, I think we all know that if the NBA wasn’t around the WNBA would have folded a long time ago. Is there any kind of help coming from Major League Soccer or the US Soccer Federation as far as support monetarily?

VOICE 3 - (AUDIO)
Well we work obviously very closely with the US Soccer Federation and have open dialogue at the team level with their local MLS markets. But there is no financial support that we’re receiving from either of those sources.

Kim playing soccer with a men’s team
SOUND: Rain falling on grass

NARRATOR
Less than one month after Gold Pride folded, the Chicago team announced that they would suspend operations. Officially leaving six teams left in the league.

WS of Kim zooms into a MS of her
I guess a little bit of the feeling is just that if one more team folds, this league is definitely not gonna happen.

After playing two years in the league, I feel like that experience should be more valuable. But it’s not. That’s just the way it is right now. It’s valuable. But there’s only six teams. So for me personally it’s a little bit frustrating because I feel like I deserve to be in the league but I’m not being offered a whole lot.

Right foot cruyff. Then the next time is left foot cruyff. Right? So it looks like this. Inside outside, inside outside... just keep the ball going diagonal. Not straight, going diagonal, get to the cone. Cruyff behind the leg and then you’re doing the same thing coming back. Inside outside, inside outside... Good more diagonal. Good Sid. Do the cruyff before the cone so you don’t run into each other.... Good... good Angelie... again...

Soccer is so big right now, as far as youth soccer. There are so many kids involved in this sport. But once it comes like supporting a team? There are... fans are just not willing to come support us.

You hear so many parents say “Oh look the... FC Gold Pride. My daughter wants to be there and she loves you guys and one day she wants to be a professional soccer player. Well if you don’t support us then she’s not going to have that dream...

Everybody’s out. Dribble the balls back and grab some water. All the balls there. All the balls down there.

Yeah.

ALI
It's Ali Riley.

COACH AARON LINES:
Ali Riley, how are ya?

ALI:
Good. How are you?

NY FLASH COACH:
Good, good. Thank you. Thanks for returning my call. What's going on Ali?

ALI
I finally came up with my decision. And I committed to Buffalo. That's the new expansion team. It's called Western New York, The Flash. So I am going to... I finally have my contact in so I'm gonna sign it and send it back. So that'll be official.

NY FLASH COACH:
(Laugh) Great. Congratulations. We're super excited about you singing with us.

ALI:
Yeah me too.
KIM AND ROSIE TRYING TO HOLD ON
MUSIC: Acoustic guitar and Percussion

JUN
Do you think at all that your career might be finished? Like, is there a possibility?

ROSIE:
Um, yeah. I mean it’s a possibility of course. Do I want to accept it? No (laugh). Do I want to finish? No. No I still have at least a couple more years in me physically. And I would just... anything... like even if a team said, "hey come play with us but we don’t have any money.” I’d be like alright, I’m there, wherever you need me just tell me where to be.

KIM gets in her car. She’s inside her car driving.
SOUND: Car noise.

KIM (VO)
I feel like soccer has always been a part of my life and always will be and um, I know I can play at a high level for you know, quite a number of years more. Even though I’m maybe on the older end of some of the players. I’m still 28... pretty... pretty young (laugh).

Shot from the car of a residential neighborhood

I mean I go through different periods of times where sometimes I just want to be done with it, with trying to play because... particularly because of just the lifestyle it requires of you to be ready to do anything or go anywhere and that sort of thing. So, you know, at certain points I’m going to have to make decisions in terms of, no, I’m not willing to go to Atlanta and get paid nothing just to play. Um, but I don’t think I’m at a point where I’m trying to decide, okay I’m done with soccer or I’m not done with soccer.

KIM
Even though she’s not getting it there every time, stay behind the gate. You’re coming in. One v. one. It’s the last minute of the game. Make your move. Look up. You better score it, you better score it. Yes! Game winning goal!
